

MOEZ ROJBI

Senior Manager | Technical lead .Net, SQL | PSM® at ODDO BHF

Tel: +216 20 605 420 • Email : moez.rojbi@gmail.com • <https://www.linkedin.com/in/moez-rojbi-9a98a259/>

Resume

Senior Manager with 10+ years in .NET and SQL development, skilled in leading high-performing teams and driving Agile transformations. Proven ability to streamline processes, enhance collaboration across distributed teams, and deliver complex financial systems. Key strengths include Agile/Scrum implementation, DevOps (Azure), process optimization, system migrations, and regulatory compliance.

Experience

ODDO BHF

Tunis, Tunisia

Senior Manager

03/2022 - Present

After three years as a Team Lead, I was promoted to Senior Manager, where I focused on improving processes and driving greater efficiency across the development teams. Through these initiatives, I have successfully improved operational efficiency, system quality, and cross-team collaboration, supporting the company's strategic objectives and growth.

- Transition to Agile: Led the shift to Agile and enhanced the use of Scrum, improving collaboration and delivery speed across the team.
- Team Coordination: Streamlined communication between our geographically dispersed team (developers in Tunisia, business analysts in France and Germany), ensuring better alignment and faster decision-making.
- Process Improvements: Overhauled the incident management process, ensuring quicker resolution times and reducing downtime.
- Azure DevOps Migration: Successfully migrated the team to Azure DevOps, improving version control, automation, and overall team productivity.
- Quality Assurance: Led initiatives to strengthen the Quality Assurance (QA) team and improve testing processes, resulting in higher-quality deliverables.
- Code Quality: Implemented best practices to improve code quality and maintainability, reducing technical debt and speeding up future development cycles.
- Key Projects Delivered:
 - Caseis: Delivered an enhanced financial system with improved functionality and performance.
 - Clearing: Led the development and integration of a new clearing module to become a clearing bank.
 - LBPSG Migration: Managed the successful migration of key systems to new infrastructure, ensuring minimal disruption.
 - FATCA/CRS: Implemented FATCA/CRS compliance to ensure adherence to global tax regulations.

ODDO BHF

Tunis, Tunisia

Team Lead

04/2019 - 03/2022

After two years as a Developer at ODDO BHF, I became a Team Lead at LCB, where I manage the development and improvement of key financial modules within our core banking system, including Financials, Private Equity, and Settlement. These projects have helped enhance system performance and ensure compliance, contributing to the company's growth and operational efficiency.

- Leading a team to design and develop financial system solutions
- Improving the quality, performance, and scalability of our core banking modules
- Collaborating with business teams to meet regulatory and functional requirements
- Mentoring junior developers to enhance team skills and performance
- Ensuring best practices in software development and delivery
- Successfully led the migration of financial systems to a new platform, improving efficiency and reliability.
- Implemented CSDR compliance in the settlement module, ensuring regulatory adherence and improving settlement processes.

ODDO BHF

Tunis, Tunisia

.NET Developer
